

STRIKE SITUATIONS ARE MORE HOPEFUL

UNION CAR MEN IN NEW YORK RATIFIED A TENTATIVE AGREEMENT.

EXPECT SETTLEMENT IN R. R.

Wilson and His Aids Hope Big Walk- out of Railroad Men Is Averted.

(Associated Press)
New York, Aug. 7.—The union car men have ratified the tentative agreement and are ready to return to work. The directors of the New York railroads will also ratify the agreement, it is announced. The company directors are still in session.

Hope for Car Strike End.

New York, Aug. 7.—Following the arrival of William B. Wilson, secretary of labor, it was rumored that a settlement of the street car strike would be reached within seventy-two hours.

This settlement involves recognition of the union, it is stated. Questions of wages and working conditions will be arbitrated.

STRIKE IN PHILADELPHIA.

Philadelphia, Aug. 7.—Only 400 men responded to the strike call today, according to officials of the Philadelphia Rapid Transit Co. Union leaders, however, say 1600 are out. Three strikers have been arrested. It is alleged strike breakers are being employed.

Washington, Aug. 7.—There is an optimistic feeling in administration circles that plans are developing to avert the great railroad strike that would tie up the interstate commerce of the country.

This feeling is based on favorable reports received from Federal Commissioner Hanger of the board of mediation and conciliation, who is in New York conferring with the railroad managers and the heads of the labor unions.

General Conference Holds Key.

The issues in the dispute between the managers and the railroad unions affecting 400,000 employees and 225 roads, will be brought to a head at a general conference to be held in New York between their representatives.

In the meantime Commissioner Hanger is working with influential leaders on each side along some line of arbitration that may prove acceptable should no agreement be reached at the general conference.

Union Men Think Strike Averted.

Prominent union labor men here also incline to the belief that there will be no general strike, and that some way will be found to adjust the differences pending further negotiations for a settlement of the wage and hour of labor questions raised by the railroad employees. They think the most powerful factor to this end will be the fear of federal interference.

The crisis in the railroad situation was reached in this city June 15 last, when the conference between representatives of 235 railroad systems and 400,000 employees in this country failed to adjust their differences. The conference began June 1 following the presentation on March 30 of demands by the men for an 8-hour day and time and a half overtime.

It had been hoped the conference might make unnecessary the taking of a strike vote by referring the question to arbitration. After hearing the

Voters Resent Mud-Slinging Of Col. Lowden's Opponents

"Hundreds of letters and telegrams," said former Attorney General W. H. Stead, manager of the Lowden for Governor campaign, "telling of the prevalent indignation against those who are making Colonel Lowden a target for personalities, have been received at the Lowden headquarters. It seems to have been made plain for all time in Illinois that the voters generally do not approve a campaign of attack, commonly known as mud throwing. Voters who wish to reach dispassionate and intelligent conclusions as to candidates resent personalities that only confuse. I no longer have the slightest doubt what is the popular temper on this subject."

"After all the candidates have visited Velleville (to mention a typical illustration) two local newspapers, which had theretofore been neutral, came out for Colonel Lowden. A

Boxes of chocolates for the first and second prizes will be awarded the ladies. The prizes for the gentlemen in driving will be golf balls.

MILK FAMINE IN ILLINOIS

Dry Weather Has Killed Pastorage— Price of Fluid Raised.

Clinton, Ill., Aug. 7.—Central Illinois towns have been suffering from a milk famine as a result of the long drought which dried up the pastures. Ice Cream factories and creameries have been unable to get supplies. The importation of milk from Southern Illinois has been cut more than half, and the price raised from 1 to 2 cents a quart. Recent light rains failed to revive pastures. More flies than usual also cuts the yield.

Movement Started By Women Spread's Spirit Of Good Will

Mrs Jessie M'Cutcheon Raleigh's Good Fairy To Be Up- lifting Spirit

A miniature figure of a child, pure and sweet, with arms outstretched appealingly to awaken good thoughts and restore disarming innocence to childhood, stood on the desk in the rooms occupied by Mrs. Jessie M'Cutcheon Raleigh, a member of Mrs. Louella Parsons' party at the Nancusa Tavern.

The statuette is that of the Good Fairy that every child has dreamed of and believed in, and every grown-up has thought of in his troubled moments. The Good Fairy is the symbol of a movement which Mrs. Raleigh has created, and which the great men and women of the nation prophesy will become a world-wide movement. It will be a fad—but will be a fad of lasting influence.

The statuette, which all believers will have, will be a constant reminder that we should all be as children in our wholesome faith in the good things in life. It will remind us that it is much better to be kind to all, to speak a kind word rather than a harsh one, to remember always that each one of us was born good, and pure and kind. The Good Fairy will take the place of the Billiken and the Cupie, and its followers will be better to themselves, their friends and their country. It is a wonderful movement this young woman has started and her reward will certainly come in the knowledge that she has indeed bettered the world with her art and inspiration.

Mrs. Raleigh's creation is of special interest to Dixon people who remember her as Miss McCutcheon, who visited Miss Annabelle Baldwin here many times.

HUGHES PLEADS FOR LABOR IN BIG MEET

REPUBLICAN CANDIDATE OPENS CAMPAIGN AT DETROIT TODAY.

THOUSANDS WATCHED PARADE

G. O. P. Standard Bearer Has Busy Time at Automobile City Today.

(Associated Press)

Detroit, Mich., Aug. 7.—The Republican presidential campaign is on. When Charles Evans Hughes, the party's standard bearer, arrived here this morning he was met by a great throng at the station and he headed a big automobile parade from the depot to the hotel. Bands played and giant firecrackers exploded along the line of march, along which thousands stood.

A series of receptions, conferences with party leaders—progressives as well as republicans—a visit to Navy Field to witness part of a ball game, a tour of the automobile plants, a luncheon with newspaper men and two speeches this evening constituted the candidate's program for today.

Pleaded for Labor.

Speaking to forty manufacturers of Detroit and vicinity, employers of almost 100,000 men, Hughes congratulated them on what they had done for the welfare of their employees and told them the democracy of the United States will not stand for the continuation of "this alleged strife between capital and labor." He declared that the American workingman should not be regarded as mere economic units but as "fellow workers and human beings."

BONEHEAD PLAYING CAUSED FULTON WIN

CARP HUBER PITCHED A SWELL GAME OF BALL SUNDAY BUT MATES LOST.

VISITORS ON TOP SCORE

Timely hitting by the Fulton aggregation and prize boneheading by the Dixon aggregation caused the defeat of the home guards yesterday afternoon to the tune of 7 to 1. The game was as fine a specimen of baseball up to the sixth inning as could be witnessed, when a bad throw by Dixon's shortstop let a Fultonian cross the plate and then the fireworks were off, and after this the Fulton team crossed the triangular block at will.

"Carp" Huber pitched one of the best games of his career but had absolutely no support, fanning the leaguers from Fulton time after time, and frequently the Dixon players were fanned by the veteran leaguer, Ambros. Up to the sixth it was purely a pitchers' battle. Huber got Dixon's first hit in the eighth when he sent a clean one through short, but the following Dixon batters failed to come to his support and he was left on the runway. In spite of the large number of runs, Huber held the Fultonites to only three hits, while Dixon got to Ambrose for the same number. McCarty made a wonderful shoestring catch early in the game and probably stopped the scoring of two runs for Fulton, as the bases were full. He had hard luck with the stick, too, as he was robbed of two line drives which should have been hits and both times Dixon men were on bases.

Dixon people are deeply interested in the lecture of Mrs. Louella O. Parsons, to be given at Assembly park at 8 o'clock tonight. Mrs. Parsons should be greeted by a large audience, as her talk will undoubtedly be instructive. She will tell how to write motion picture plays, and will review in general the motion picture business.

Governor Here Tomorrow.

The big feature of tomorrow will be the coming of the Governor of Illinois, who will address the Assembly at 3 o'clock in the afternoon. Gov. Dunne should be greeted by an auditorium full of people. He comes not on a political mission, but to visit his friends and the Assembly, an institution he has never visited. His subject will be, as announced by the Assembly management, "Illinois and Her Needs." Gov. Dunne is a splendid speaker, possesses a fine personality and is a good mixer. As the chief executive of the state he should be made welcome. Forget politics for the moment and give the governor the reception to which he is entitled.

Sunday Big Day.

Sunday was one of the biggest days of the session. Nearly 5,000 people were on the grounds. The auditorium was well filled during the lecture by Dr. William Rainey Bennett, who held his audience every minute; not a dozen left the auditorium, though it was exceedingly warm. Bennett delivered a practical talk, dealing with facts. His subject was "The Man Who Can." He said that in every brain is a sleeping genius; it can be awakened. The lecture helps a young

a visitor in Dixon tomorrow, through the instrumentality of Col. William B. Brinton, President of the Dixon Chamber of Commerce, and the Governor's opponent for the nomination for Governor on the democratic ticket. Gov. Dunne comes to Dixon in response to Mr. Brinton's invitation that he attend and address the Assembly, and incidentally look over the work that has been done at the Epileptic colony.

The Governor will arrive in Dixon at 1:18, coming via the Northwestern, and he will be met by a committee from the Chamber of Commerce, headed by Col. Brinton. The party will drive directly to the colony, and will return to the Assembly in time for the Governor's address at three o'clock, where he will speak on his favorite subject, "Good Roads." During his stay in Dixon the Governor will be the guest of Mr. Brinton.

DELEGATES.

This is the closed season for delegates, but we should nevertheless study them with great care for, like the 17-year rascals, they are bound to come again.

A delegate is a man elected by a primary, or by a large man in a speckled vest, to do the thinking for his community. Delegates are chosen because they are supposed to develop more intelligence per minute under a load than the common plug citizen and to use wisdom in a convention as lavishly as the ordinary man uses ketchup on beans.

Sometimes there is a dispute and rival candidates are appointed by rival conventions. In such cases the credentials committee settles the dispute by praying for guidance to select the crowd who will vote for the right man.

Delegates are not paid for their services, but are glad to do the people's thinking for them because of the honor. It is a great honor to be a delegate, but after the average specimen has paid \$10 a day for board and rooms for ten days he begins to murmur and repine and curse the

candidates and telegraphs home for money and a clean collar. About five days of honor at 100 degrees in the shade is as much as the ordinary delegate can stand.

A delegate goes to a national convention a free man, full of patriotism and sagacity. But when he gets there he becomes afflicted with stampedes, cheers, riots, perspiration, pugacity, profanity, allegations and recriminations, and has to do his thinking after he gets home, with the assistance of those who were once his friends. There is no more impressive sight than that of 1988 standing and able delegates in a crowded convention hall, standing on their hind legs and using their heaven-sent wisdom in throwing their hats into the rafters because a brass band has exploded at a critical moment. A delegate may be a cool, calm man at home, but in a convention he is generally so nervous that a blue sash and a pink banner will stave him on the steenth mal-lot and he will vote wildly for a man whose name he has to ask afterward.

Delegates are supposed to be public property, but often pass into private hands.

LOWDEN IN MASTERFUL ADDRESS

(Continued from Saturday's Daily)

They are trying to make you believe that the Underwood tariff law is responsible for what they call "These good times." Well, people who are interested in the manufacture of munitions of war are having good times, and people in industries relating to munitions of war are having good times, but not as a result of the Underwood tariff law, but as a result of the war. Thank God, I depend to a party which does not have to depend upon a world war as a measure of prosperity which can only be seen in the light of a thousand camp fires from across the sea and when that war is over if Underwood tariff law is upon the statute books I give you my word that we will have harder times in this country than any of us have ever seen before. The countries of Europe will have need of gold and they will send their products here and we will get them at our own price. No, my friends, you have got the old question in a more serious form than you have had it in generations, in my opinion.

Then look at the tariff they did frame. It was purely a sectional tariff they did frame and it was natural that it should be. Because if we did not have a principle, namely, to protect what we produce or are capable of producing in sufficient quantities to meet our own demands our tariff would probably be sectional too. We would naturally, if we control Congress, think a little more of our own industries. For instance, in the Underwood tariff wheat went on the free list and at once our wheat fell off course on a parity with the Canadian wheat and when it came to rye which is a food product which sometimes comes in competition with wheat the tariff was increased. Wool was put on the free list. Now they say that wool is higher than it ever was before and why? Simply because the war has acted as a prohibitive protective tariff and nothing else. What did they do with the fleece of goats, a southern product? They put a protective tariff on the fleece of goats. Now I have heard all my life—there is even sacred authority for it—of dividing the

sheep from the goats, but never before in all my life have I heard of that division being made where the sheep got the worst of it. Sectional tariff! I could go all the way thru. Why but! They were afraid we were going to make too much money and they proposed that Denmark and Holland should have the benefit of our markets and they reduced the tariff on butter about 50 per cent. Then, suddenly, they aroused themselves to the need of revenue and for the first time in history they put a duty upon peanut butter. I have heard all my life the phrase "Peanut politics," but this is the first time I ever knew what it really meant. Don't be misled, because this war acts as a protective tariff. Thank God, when the war some day ends, when normal times are restored, we will be confronted as never before with the necessity of a republican protective tariff and we will have one if we elect Charles Evans Hughes next November.

Now, my friends, I should like to discuss foreign affairs, but I will not have the time. I would like to point out how inefficient we have been in the conduct of our foreign affairs whenever you try to discuss this question with our democratic friends they discourage you. Whenever you ask anything about it they say, "Sh, do not say anything. War in the East, peace in the West. Thank God for Wilson." That is their legend upon their campaign text books. That is what they say when you ask how it was. They kept us out of war! We have had war with Mexico two times already and to no purpose. Our policy has been puzzling, vacillating and shifting. I want to tell you, if I have any judgment of affairs, that we could not have gotten into war with any foreign powers during these years and I want to tell you that a firmer president would have kept us farther from war than Wilson has done.

No doubt you would like to have me talk more about my candidacy for the Governorship. I made up my mind at the beginning of this campaign that I was not going to tell the people all about myself. I am 55 years old. I have lived in the state 35 years. I have been a pretty active life. My life has got to speak for itself and if it is silent upon any question which is now in your hearts, no words I can say can supply that defect. Now, a lot of you cred authority for it—of dividing the

peet me to say, something about other candidates. There are other candidates for this office, but I am not going to speak about them, either. I have a number of reasons. There isn't any charge made, I think, that you cannot find the answer to by talking to people who have known me longer than you have. But I am not going to answer those charges and I am not going to make charges against any one else. There isn't any office on earth that I want badly enough to build myself up to reach upon the ruins of someone else. (Applause.) I remember when I was first a candidate for congress in this district and some of you perhaps remember, that a lot of my friends wanted me to get out and abuse somebody, or criticize somebody or make a lot of row, and I said to them that I would not do it. I preferred the quiet and dignity of private life. I added that I would so conduct my campaign that at its close, whatever the result, I would be in good company even when alone. (Applause.)

Then, there is another reason. I believe that is the reason why I so strongly want a reunited party. I believe from the depths of my heart that there hasn't been a time since 1860 when it was so important to elect a republican ticket as it is this fall. I do not know what lies in the years beyond, but I know that they are big with big problems and that we need all the genius of a reunited republican party to meet the problems of those years. I think it is of the last importance that we should elect Charles Evans Hughes president of the United States. (Applause.)

Believing this and having a common interest in this country because when I am gone I shall have left children behind—believing this, it seems to me that the personal fortunes of any man at this time are of no significance whatever. I am not going, at this critical time, to furnish any material for a democratic text book after the primaries are over. (Applause.) I am going to keep myself in a position where I can go to the polls on election day and not only cast my ballot for the republican ticket, but know in my heart that I have not kept anybody else from casting his ballot for a republican candidate.

And now, just one word more for my democratic friends, and I see one or two of them here. I have told you what I thought about conditions now—I want to remind you that in 1860 we would not have won if it had not been for recruits from the democratic party. I often think we sometimes forget—we are too partisan, perhaps—forget the debt we owe to the war democrats of those early days. They not only helped us then, but again in 1896 when national dishonor threatened us—when it seemed to many of us that the end of the great republican party was nigh and that Bryan would win. Perhaps we exaggerated the importance of it then. Again, it was our democratic friends who helped us save the day and there never has been so good an opportunity as there is again this fall for a democrat to follow the patriots of 1860 and those other patriots of 1896 and fall in with a united republican party. It is the best opportunity you will ever have to find how well you will be treated and the fellowship extended to you, and you will wonder why you did not do it many years ago.

I see a number of friends from other parts of this district and I would like to have you take a message to those at home who could not come. I would love to go to every town, and see all the people and speak to them, but I cannot do it. I hope to go later—just when, I cannot say—I hope to go later, but anyway, take to them from me my affectionate greetings.

Thanking you for your sympathetic reception, thanking you for your patient hearing today and again telling

you how happy I have been to be with you once more, I bid you all good-bye with the suggestion that I would like to meet any of you I have not already shaken hands with when this meeting is over.

FRENCH AND GERMAN FLIERS IN HOT DUELS

Two Hundred Air Bombs Dropped on Teutons' Positions.

London, Aug. 7.—The most extensive air raids in weeks marked the fighting on the western front. The Paris official statements report six bombardments of important German positions by flotillas in force, besides numerous sorties. A total of 200 air bombs were dropped in the Comblies region and on the stations in Noyon, St. Omer, Sedan, Conflans and Metz-Sablons, and on the military depots at Rombach, north of Metz.

The midnight official statement from Paris announces that two German aeroplanes were brought down on the Verdun front, and another, of new type, was captured unharmed at Moyenville.

The German report states that two French aeroplanes were brought down, one north of Fromelles and another northeast of Bapaume.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jax Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jax Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys active and clean. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

TO keep the hair beautifully soft and fluffy, shampoo regularly with Ivory Soap. For, unlike many cleansers, Ivory Soap does not make the hair dry and brittle.

Make a warm suds with the paste. (See directions inside wrapper.) Saturate hair and scalp. Rub the scalp with the paste and dip the suds over it. Rinse with spray or cup, gradually cooling the water. Dry by rubbing, in the sun if possible, but do not use strong heat.

Ivory Soap, because of its purity and mildness, does not affect the scalp's oily secretion, yet because of its wonderful cleansing power, it thoroughly absorbs the dirt and surplus oil. The rinsing, therefore, removes easily and entirely all this matter with the lather, leaving the hair in condition to dry soft, silky and glossy.

Birthday Club Meets

Mendota Sun Bulletin: The birthdays of Mrs. Catherine Malach and Mrs. George Lauer, daughter of Mrs. Malach, were celebrated at Sublette last Tuesday, when the birthday club of that town gathered at the home of Mrs. Malach. The latter had reached her seventy-third birthday and the afternoon was spent in a very enjoyable manner by the members of this organization. It was a thorough surprise to Mrs. Malach and Mrs. Lauer and the few hours sped all too quickly as the ladies indulged in social conversation with each other and paid particular attention to the honored members of that day.

When the hour for lunch came there were to be seen upon the table two large birthday cakes. One was decorated with 71 burning candles. Both were beautiful and the lunch was splendid, all the dainties were served and all apparently had good appetites, which bespoke of the good health of the members of the club.

Hearty congratulations and wishes for many more birthday celebrations were heard upon every hand as the ladies dispersed late that afternoon.

Those present who were not members of the club were: Mrs. Geo. Koehler, Mrs. Dinges, Mrs. Geo. Stephenhitch, Mrs. Butler, Sr., Mrs. Fisher of Sublette, and Mrs. Fitzgeraid, of Arlington.

THE CARE OF FURS.

The woman who values her furs,
yet cannot afford cold storage, should
clean and air them thoroughly, ex-
amining them with care. The more
valuable the fur the greater the dan-
ger from moths. Some furs, like
Russian sable, for instance, cannot
be mended, and in less than four
weeks a single moth can ruin an en-
tire sable garment. If a small moth
or even an egg, is in an article
when it is packed, no amount of so-
called preventive will kill it. It is
necessary, however, therefore, to have
the garments thoroughly cleaned and
aired, shaken and sunned, before
packing.

Daddy's Bedtime

How a Wonderful
Story— Nightingale Sang
For an Emperor.

[Adapted from Hans Christian Andersen.]

WHEN the children climbed up in daddy's lap he told them the Chi-
nese story of the emperor who sent all his courtiers to find a night-
ingale that sang beautifully in the royal woods. "Soon as they
found the nightingale it asked, 'Shall I sing for the emperor?' The
agreeable bird thought the emperor was there in the woods.

"My precious little nightingale," answered the highest courtier, "I have the
honor to command you to come to court tonight and sing for the emperor."

"It sounds best among the trees," said the nightingale. But it went to the
palace gladly because it knew the emperor wished it.

"Now, the palace had been all brightened up for the concert. All the china
walls and floors shone in the lights of thousands of gold lamps. Most beau-
tiful flowers, with little silver bells tied to them, stood in the halls, and when
the breezes blew the bells tinkled. In the middle of the large hall where the
emperor sat a golden rod had been fixed for the nightingale to perch on. The
whole court was there, and a little kitchen maid, who had led the courtiers to
the spot in the woods where the nightingale was found, was allowed to stand
behind the door.

"Then everybody kept very still, and all eyes were turned toward
the little gray bird at which the emperor was nodding. The nightingale
sang delightfully, and tears came into the emperor's eyes. Then the
nightingale sang more beautifully still, so that its notes touched all hearts.
The emperor was so charmed that he said the songster should have a gold
slipper to wear around its neck. But the nightingale thanked him and said it
had been rewarded enough by the tears of the emperor. Then it again burst
into its sweet, heavenly song.

"That is the most delightful music I have ever heard," said the court la-
dies. And they took some water in their mouths and tried to make the same
gurgling, thinking so to equal the nightingale. Even the lackeys and chamber-
maids said they were satisfied with the song. And this is saying a great deal,
for they are most difficult people to please. So the nightingale was to stay at
court now, have its own cage and the liberty to walk out twice a day and
once at night. But when it went out to have a good time now it always had
twelve footmen, with each one holding a ribbon which was tied around its leg.
There was not much pleasure in an outing of that sort, was there, Jack?" dad-
dy asked.

And the children gave him two kisses for his bedtime story.

The Emperor Was Charmed.

demands of the unions, however, the
railroads refused to make a counter
proposal and dismissed the subject by
offering to discuss what they termed a
tentative proposition granting the
men's 8-hour demand, but refused all
others.

The unions declined the offer and
the railroads suggested placing their
differences before the inter-state com-
merce commission for decision, or if
that body was without authority, that
both sides join in petitioning congress
to grant the necessary power. If this
proved unsatisfactory to the unions
the railroads suggested arbitration un-
der the Newlands act.

Refused Arbitration

The men rejected the two proposi-
tions. Their spokesman, A. B. Garrett-
son, president of the Order of Rail-
way Conductors, in an impassioned
speech, said the men would never con-
sent to arbitration because of the fair-
ness of the unions to obtain justice in
prior disputes through that method.

The leaders of the Brotherhood of
Locomotive Engineers, the Brother-
hood of Locomotive Firemen and En-
gineers, the Brotherhood of Railway
Trainmen and the Order of Railway
Conductors upon withdrawing from
the conference at once drafted the
strike ballot and in order to expedite
the vote caused their distribution by
the 600 union delegates attending the
conference.

Did Not Mean Strike.

It was pointed out at the time by
the Brotherhood's leaders that a vote
ordering a general strike did not nec-
essarily mean the immediate institu-
tion of the strike, that the strike or-
der would not be issued until every
effort for amicable settlement was
exhausted.

In statements from the railway
roads, following the break-up of the
conference, it was held that the 8-
hour day demanded by the men did
not actually mean a shorter workday
but rather an increase of 25 per cent
over existing wages for the same
amount of work, and an increase in
cases of 87 1/2 per cent for overtime,
as compared with present rates. The
demands pertain only to freight ser-
vice.

Added Expense.

The railroads maintained that to
allow the increase would mean \$100-
100,000 a year to operating expenses
of all roads in the country, "for the
benefit of men whose average pay per
day was increased from 20 to 42 per
cent from 1903 to 1914, while the
wages of the western engineers were
further increased in 1915."

The proposition submitted by the
men at the conference provided that
100 miles or less, or eight hours or
less should constitute a day, with over-
time beginning at the expiration of
eight hours on runs less than 100
miles, and as soon as 100 miles had
been run on longer trips, overtime to
be computed one and one-half times
the pro rata rate, no one to receive
less than they had previously received
for a minimum day. The men were
to be guaranteed the right to retain
any rates of pay or schedule in ef-
fect January 1, 1916, which would be
preferable to the new schedule.

The roads contended that the men
made no allowance for the difference
between railroad and industrial ser-
vice. They pointed out that railroad
engineers or trainmen are guaran-
teed payment for a full day no mat-
ter how few hours they work and re-
ceive pay for a full day if they work

more than either established miles or
hours. In other lines of industry,
the railroads held, the employee does
not receive a day's pay for less than
a day's work, and ordinarily he can-
not earn more than a day's pay for
less than a day's work without work-
ing more than the regular number of
hours.

SONG FESTIVAL AT ASSEMBLY SOON

(Continued from page 1)

person to find himself. It gives him poise, power. Mr. Bennett drives his points home somewhat in the manner of Billy Sunday.

When the heat became too intense the speaker paused to take off his coat, going into his subject with more energy. Mr. Bennett is a thinker, a philosopher and a young man of fine oratorical abilities and a master of good English.

Immediately after the lecture the Dixon Chamber of Commerce orchestra, assisted by several girls of the College Glee club, rendered a splendid program, which was enjoyed by a large audience.

Dunbars Pleased.

The Dunbars closed their engagement with the Assembly with a sacred concert last evening. A very large audience heard these talented young men and all pronounce them good. Their bell music upholds the Dunbar standard and their programs include only compositions to which bell interpretation adds a peculiar charm, many being classics as well as heart songs and gems of sacred melody.

Maryland Singers.

Charles Frink and the Maryland Singers gave a splendid program this afternoon. The ladies are vocalists of first rank. Charles Frink can make a banjo sing. He is also a splendid baritone singer. Frink and his singers are a musical bunch; they gave an entertainment that entertains, with real music, talk fun and chalk fun—in fact par excellence. It is to be regretted that these splendid people were able to give but one entertainment during the session.

The Metropolitan Grand Quartette comes Tuesday and Wednesday. The four men can sing, both individually and as a quartet. Each voice is great. Each has had extensive experience in part singing, so their voices blend almost perfectly, and splendid ensemble effects are the result.

Miss Minnie Iola Lane appears with the quartet as pianist and accompanist—a good artist. They give their first concert at 2:30 o'clock Tuesday afternoon.

Sidney Landon will give an entertainment Tuesday evening. This young man is rightfully called a character artist, and has an acute, discerning mind, literary to a degree and possessed of the faculties for reading character which makes a success of his work.

Moving Pictures.

Mr. Helms will show the following moving pictures tonight: Dogs Revenge; Coffee Culture, and Mary's Goat.

MacQueen Pleased.

Saturday was Sterling day and hundreds from that city attended the

Assembly. Peter MacQueen delivered a very interesting lecture on "Mexico" Saturday evening. His pictures were interesting, and on the whole it was one of the most instructive lectures of the session. Next Saturday will again be Sterling day and it is expected that many from that city will take advantage of the reduced rates to hear the famous Walker's Fisk Jubilee Singers. They will be here Saturday and Sunday, closing with a concert Sunday night.

The children of the Assembly will give an entertainment next Saturday evening.

Collect for Orphans.

Thirty dollars were collected at the Assembly Sunday school on Sunday morning which will be donated to the Nachusa Orphanage. There were 199 people in the class, taught by Rev. Kapp, who gave an excellent talk.

In the month there were five deaths there, three of the unfortunate ones passing away within 24 hours after their arrival. Sixty-one patients were discharged from the institution during the month. Thirteen nurses are now in training at the school.

Max Gerdes of Marion spent today in this city.

FESTIVAL OF SONG AT ASSEMBLY SOON

LEE CO. S. S. ASSN. TO SPONSOR GREATEST EVENT OF SEASON.

CHORUS OF 500; SOLOISTS

Residents of Lee county and vicinity will be given a rare treat in the concert to be given as part of the festival of the Lee County Sunday School association at Assembly park Aug. 3, judging from accounts in newspapers of Knoxville, Tenn., where one of the soloists, Lora Withers Biggs, appeared last month. We find the following as part of that published by the Knoxville Sentinel: "Madame Withers can sing and sing superbly. Her voice is of exceptional sweetness and purity, clear and strong and above all sweet. One admirer in the audience remarked, 'Why, she sings as easily as most women talk.' That was indeed the way she sang even the most difficult numbers and the program was ambitious as well as varied and one that would call upon the technical equipment of the artist as well as the vocal powers.

Miss Mabel Woodworth, also of Chicago, is undoubtedly one of the leading young violinists of America. She began her studies at the age of six at the American Conservatory, in Chicago under Adolf Weidig, well known violinist and composer. During the succeeding years of study she received highest honors in every course, graduating at the age of 16, when she played Brahms concerto for violin, with the Theodore Thomas orchestra. Her success with musicians and critics was pronounced. The following year was spent in Berlin, under the guidance of such masters as Florian Zajtze and Henri Marteau. Since her return to America she has appeared, with greatest success as soloist and ensemble player throughout the middle west. All critics agree that her playing is most musicianly and artistic. Her repertoire includes all standard works—sonatas, concertos, etc.—by the greatest classic and modern composers.

Beside the soprano and violin soloists from Chicago, the festival concert committee has secured the services of Mrs. E. M. Goodsell as musical director, E. E. Holdridge as orchestra leader and Mrs. Frank Rosbrook and Clinton Fairney as pianists. These musicians, all of Dixon, are too well known to need comment. They will be assisted by a chorus of 500 Lee county singers and an orchestra of fifty.

SMALL GAINS ON WESTERN FRONT

London, Paris and Berlin Report Minor Successes.

BITTER FIGHT AT THIAUMONT

Struggle Around Stronghold in Verdun Sector Is Violent—Advantage Is With French, Who Still Hold It. Allies Advance at Two Points on Somme Front.

Paris, Aug. 7.—A further gain of ground by the French in local operations northeast of the Thiaumont work on the Verdun front was announced by the war office. A German counter attack in this sector was repulsed.

Progress for the French southwest of Estrees, on the Somme front, as a result of small engagements, also was announced.

Germans Gain in Chapitre Woods.

Berlin, Aug. 7.—Desperate engagements continue in the Verdun region, notably in the vicinity of the Thiaumont work, says the army headquarters statement. The Germans have made progress in Chapitre wood.

On the Somme the battle near Fozieres is still in progress. British local attacks near the river and at Fourcaux wood were repulsed.

British Make Advance.

London, Aug. 7.—In fighting along the Somme front in northern France the British made an additional slight advance at High wood, according to the official announcement.

The Germans actively shelled various portions of the front during the night, says the statement.

British Smash Turks.

London, Aug. 7.—The strong Turkish force which attacked the British at Romani, twenty-two miles east of the Suez Canal, on Aug. 4 was defeated and put to flight by a counter attack, says an official statement.

The Turks, the statement adds, are being vigorously pursued by the British, who have taken more than 2,500 prisoners, including some Germans.

Serbs Defeat Bulgarians.

Paris, Aug. 7.—The Serbians have won another success in operations along the Macedonian front, according to a Havas dispatch from Saloniki, taking the village of Romli, near Prosa, which had been occupied by the Bulgarians. German reports that the Bulgarians had delivered a successful attack against the Serbians south of Monastir are unfounded, the dispatch declares.

WIMBORNE IS REAPPOINTED

Official Who Resigned Is Again Lord Lieutenant of Ireland.

London, Aug. 7.—Lord Wimborne, former Lord Lieutenant of Ireland, has been reappointed to that position, the Central News announces "on official information."

Announcement that Lord Wimborne had resigned as Lord Lieutenant of Ireland was made May 10 last, simultaneously with the appointment of a royal commission to investigate the Irish revolution in April. Later Lord Wimborne explained he had resigned to make room for a clean sweep of Dublin Castle officials, not because he felt responsible for past occurrences. At that time he urged the impossibility of any man governing Ireland "with one eye on Dublin and the other on Westminster."

BABY PLAGUE IS GAINING

Sunday Was Worst Day New York Has Had With Disease.

New York, Aug. 7.—The greatest number of cases of infantile paralysis recorded in Sunday figures since the epidemic started have been reported. There were 198 new cases and thirty-three deaths, an increase of twenty-four cases and a decrease of eight deaths.

The plague now has claimed 5,923 victims and has caused 1,999 deaths. The exodus of children continues. To date 63,340 certificates have been issued.

HOUSEHOLD HINTS

CARE OF A FERN.

A fern should be watered regularly—that is, every second day. Do not drown it out, but give a little water each time. It should be kept in an even temperature and given plenty of fresh air. Plants need oxygen, like human beings. At any seed store you may get a box of plant food, which should help your fern to grow.

Siam's Rubber Crop.

The cultivation of rubber in Siam has been started, some thousands of plants having been set out as an experiment. These plants, of the Para variety, are said to be doing exceedingly well, although they have had no especial care, but have been planted indiscriminately in various places and under varying conditions of moisture, sun, etc.

A Clever Student.

Dr. Ritchie of Edinburgh was examining a student who claimed to be a mathematician. Ritchie doubted his claim, and to test him said: "How many sides has a circle?" "Two," was the reply. "What are they?" asked the doctor. "The inside and the outside," was the answer.

Glass of Hot Water
Before Breakfast
a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy nose, cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

How the French Invest

The French have long been known as the shrewdest investors in the world. In France people of small incomes buy a few shares of stock, or bonds, and pay for them in easy monthly installments.

Some time ago this plan was introduced in America and already over 30% of the Stock Exchange transactions are in "odd lots." This shows how safe and profitable people of small income find this method of saving and investment.

You may buy one share or more, and terms of payment may be arranged according to your income. Reliable information about any security provided by our Statistical Department.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y. — "For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation." — Mrs. JOHN A. KOESTER, 602 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Washington, Aug. 7.—A resolution demanding an investigation of a visit paid by Cleveland H. Dodge, New York millionaire, on Secretary Lansing a few days after the Parral battle was introduced in the house by Representative Rodenberg, Republican.

Milwaukee, Aug. 7.—No state fair is doing more for agricultural boys and girls than the Wisconsin State Fair, which is giving over \$1,500 in cash premiums and offering \$6,000 in special premiums at the 1916 exposition, Sept. 11 to 16.

In strengthening this department the Wisconsin Fair is not only encouraging future patronage, but it is also getting back more directly to one of its original objects—that of encouraging agriculture.

Professor Thomas L. Bewick of the agricultural college of the University of Wisconsin and a representative of the United States department of agriculture.

RUSSIANS BREAK TEUTONIC LINES

Slavs Victorious South of Brody Along Sereth River.

SIX MORE VILLAGES CAPTURED

Teutons Lose 3,000 Prisoners in New Russian Smash—Entire Ridge Commanding Positions in Czar's Hands. Russ Also Defeat Turks in Caucasus.

Petrograd, Aug. 7.—Russian attacks along the Sereth and Graberka rivers, south of Brody, in northern Galicia, broke the Teutonic resistance and resulted in the capture by the Russians of six villages and the entire ridge along which they are located, according to a war office announcement. More than 3,000 prisoners were taken. "Western front—South of Brody, on the banks of the rivers Graberka and Sereth, obstinate fighting continued during the whole day for the possession of villages and heights. The enemy offered determined resistance and made several counter attacks. In the streets of the villages fierce fighting took place and it was necessary to drive the enemy out from house to house.

Capture 3,000 Prisoners. "Our attack was crowned with success, all counter attacks of the enemy being repulsed and his resistance broken. Our troops have taken the villages of Zvyjln, Ratische, Tehtostopady, Melzizkory, Gnidava and Zalvoce and the entire ridge of heights between them.

"One of our gallant Cossack regiments made a cavalry attack on an enemy infantry battery to the southwest. In these engagements ninety-five officers and more than 3,000 men were taken prisoner.

"In the region of Dora, Yaremche and Tablontsa, on the River Pruth, to the south of Delatyn, the enemy took the offensive, but was brought to a standstill by our fire.

"Caucasus front: In the basin of the River Klauk-Chla our troops continued their offensive and wrested new positions from the enemy which in some places were protected by five lines of trenches. They took prisoner seven officers, including the commander of the fifty-second regiment, and 108 Askaris. They also captured four machine guns. Enemy counter attacks were repulsed.

Take Two Trench Lines. "To the south of Erzingan we captured two lines of trenches, four officers, fifty Askaris and two machine guns. The enemy suffered severe losses.

"In the region west of the village of Ognut we advanced several versts and captured two heights.

"In the region of Mush and Bitlis the enemy assumed the offensive, but is being held by our fire.

"In the Black sea our torpedo boats destroyed forty-two small sailing craft off Kerasun and bombarded boats and shore houses at Samsun."

Berlin Admits Russ Gain.

London, Aug. 7.—The Berlin official report admits that the Russians have captured the western bank of the Sereth river, as was stated in the Petrograd report.

The successes of the Germans on the Stokhod are continuing, according to the Berlin statement, and Russian counter attacks repulsed. Teuton successes in the Carpathians also are claimed.

WOULD EXTEND INCOME TAX

Senate Committee Votes to Include \$2,000 for Single Persons.

Washington, Aug. 7.—The Democratic members of the senate committee on finance voted by a narrow margin to lower the exemptions under the income tax law so that the tax will be imposed hereafter on incomes of \$2,000 and over in the case of single men and \$3,000 and over in the case of heads of families.

Member of the committee said afterward that this result probably would not stand.

OPPOSE WEST INDIES SALE

Part of Danish Newspapers Against Transfer to United States.

Copenhagen, Aug. 7.—A number of provincial papers, organs of the Left party, are against the sale to the United States of the Danish West Indies.

Some of the Left party's members of the parliament also are opposed to the sale, but owing to the fact that the Left party favored the sale in 1902 it is expected a majority of the party will endorse it.

Has Pancho Dead Again.

El Paso, Tex., Aug. 7.—Francisco Villa, wounded in the right side in a skirmish with the troops of General Matias Ramos at Hacienda San Juan, Durango, July 15, ordered his men to scatter to save themselves and then committed suicide after he had been pursued into the nearby foothills, according to a story printed in La Radical, a newspaper of Torreón, July 23, a copy of which reached here.

BACKING UP PROOF

THE KIND THAT DIXON PEOPLE CANNOT DENY

Many an earnest Dixon man or woman has publicly endorsed Doan's Kidney Pills.

Week after week, month after month, you've read their statements.

Would these Dixon people recommend any medicine if it were not good?

Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence.

The following Dixon man's statement leaves no room for doubt.

It must convince every kindred sufferer who reads it.

If your back aches—if your kidneys are weak, profit by Mr. Walford's experience:

W. Walford, blacksmith, Peoria Ave., Dixon, says: "The kidney secretions were irregular in passage. My back ached too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

NO TROUBLE SINCE

On January 21, 1915, Mr. Walford said: "I have had no kidney trouble at all in the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

hunters De Luna, a native Filipino,
succeeds an American of many years

will remain as subgovernors of the
various districts.
His appointment is in line with the
administration's policy of Filipiniza-

RULES FOR SANE LIVING

External inactivities cause internal
sluggishness. In the past to cure slug-
gishness of the system medicines have
been used. But today scientists of all
schools recognize that fact that medi-
cines do not remove the cause of the
trouble. Sane living and proper exer-
cises and diet remove the cause and
remake the troubled one.

If you wish physical vigor and
health, if you wish mental power, if
you wish to live vitality and keen-
ness of body and mind not only for the
way it makes you feel but for the way
it makes you look and makes others
feel, for the efficiency of service it
places within your power, and if you
cannot find the time to get out of
doors and indulge in good, sweat pro-
ducing, muscle stretching games and
sports, then take the only other alter-
native and exercise at home each day.
Give five minutes to health and it will
be surprising how soon the results
will begin to tell.

After a week of exercising regularly
the exercises will become as necessary
to your comfort as your bath or tooth-
brush. The day of the liver pill is
past: Nature is the great doctor of to-
day. If you follow Nature's dictates
you will not only be well but you will
find that your personality will improve
with your health. You will have found
the Fountain of Charm.

Recipes

Chicken Croquettes—Melt in a dou-
ble boiler on tablespoonful of butter,
and add the same amount of flour;
when it is foamy stir in one half cup-
ful of cream, and one half cupful of
chicken stock; stir constantly until
smooth and thick, then season with
salt and pepper to taste, remove from
the stove, and stir in two well beaten
eggs and one pint of chopped, cooked
chicken. When the mixture is cold,
form into egg shaped croquettes, and
fry a golden brown in deep fat. These
are pretty served in nests made out of
yellow celery tops.

Escalloped Lamb—A layer of cold
boiled potatoes sliced, a layer of chop-
ped lamb, butter, pepper and salt, then
potatoes and lamb until the dish
is full. Pour over hot milk and bake
in oven. This makes a very nice dish
for supper on a cold night. Even pota-
toes escalloped with cut meat are very
good, but stir in a little flour with the
milk so it will not be thin. Did you
ever toast potatoes? Slice cold boiled
potatoes lengthwise so the slices may
be handled better and put them on the
toast iron. It takes longer to toast
them than it does bread because they
are damp. Let them brown and eat
them hot with butter and salt. You can
also make a very nice pea soup from
your lamb bone after the meat is off.

Two quarts of cold water, one cup
split peas, one onion, celery leaves or
celery seed, salt and pepper and the
lamb bone. Cook half a day slowly,
then mash the peas thru a strainer
and wet up one tablespoon of flour
and stir into the soup; then repeat,
and I think you will find this a very
palatable supper dish.

Needlework Notes

There is a practical cork bag that
any housekeeper would appreciate. It
would also make a valuable addition
for the bazaar table. It is fashioned
of a straight piece of material, cre-
tonne, heavy crash, even as in one
case, from a strip of brocade, the
other materials would be more ser-
viceable. It is gathered at the top by
silk cords thru a narrow casing, and
on the ends of the cords as tassels
dangle small corks to show the pur-
pose of the bag and to give unique
ornamentation. Probably the most ap-
preciated part of the bag will be the
corkscrew attached in tassel fashion
to the bottom of the bag by means of
a clasp like that on the end of a watch
chain. The corkscrew will always be
in place if snapped back to the bag
after using.

A dancing bag deep enough to hold
slippers, gloves and vanity outfit, is
of peach pink pussy willow silk, drawn
up at the top on pale blue ribbon, and
lined with pale blue satin. There are
two frills of lace, one near the bottom
and one midway of the bag's length,
each frill put on under a tiny line of
for.

Breaking Down

Apparently the most significant re-
sult of the various changes in our liv-
ing habits is found in our declining
power to resist the strain of life on the
heart, arteries, kidneys and the
nervous and digestive systems, re-
marks science compared with past de-
cades, the increase in mortality from
the early breaking down of those or-
gans is very marked. The records of
the last census show that the increase
continues in the younger as well as
the older age groups. This points to
the shortening of the valuable produc-
tive period of life. These indications
are well attested. They cannot be dis-
posed of by the easy process of deny-
ing the statistics without investiga-
tion. Nor can the extraordinary in-
crease in cancer be explained in this
convenient way. The early breaking
down of these important organs points
to a decline in the vitality of our peo-
ple in the mature and most useful pe-
riod of their lives, and presents a phase
of the problem meriting the most care-
ful study and consideration.

For the Housewife

Dark calicoes should be ironed on
the wrong side with irons that are not
too hot.

In ironing a garment on which
hooks are sewed, care should be taken
not to close the hooks. You can pre-
vent this by placing flannel or any-
thing soft beneath the hooks.

The Ignored Invitation

If someone was nice enough to ask
you to come to her house and eat a
perfectly good luncheon or spend an
afternoon at your favorite game, don't
you think that you'd appreciate her
thought on your behalf enough to tell
her whether or not you could come?

It does seem so, doesn't it? And yet
the hostess of today is continually con-
fronted by the embarrassment of not
knowing whether her guests are going
to accept her invitations or not.

Now this is a rather startling ac-
cusation to make against well bred
women. For the worst offenders in
this respect are not the women who
go very little into society, and might
not know what was the proper thing
to do when invitations are received.

Not at all. They are women who
move in the best circle of society.

To be sure they will almost always
save their reputations by sending a
reply to an invitation some time be-
fore the appointed hour, but the day
before a luncheon is hardly adequate
warning, when one remembers that a
hostess must do her ordering at least
as early as the morning before the day
that she entertains.

A hostess who entertains at lunch-
eon followed by bridge, must plan very
definitely upon the number of guests
that she is going to entertain. In the
matter of money alone, to say nothing
of convenience, it makes a difference
whether she is buying for twelve or
fifteen, for if she is taking pains with
the affair it is probable that her lunch-
eon is costing several dollars a plate,
as she spares no trouble or expense
to provide the best things for her
guests which the market affords.

When the games are played after
luncheon it is still more important to
know who is coming as when players
drop out substitutes must be summon-
ed at the last minute or one or two
women be left over.

These irregularities are to be ex-
pected by every hostess. Many of
them are unavoidable, but when one
receives regrets the day before a
bridge party which pleads a previous
engagement, and invitations have been
issued for at least two weeks, it looks
rather bad for the woman who has
known for two weeks that she could
not come and hasn't taken the trouble
to notify her hostess.

And yet this sort of thing happens
repeatedly.

A woman who gave a series of
large bridge parties some time ago
was reduced to the somewhat humili-
ating necessity of telephoning to sev-
eral of her guests and asking them
if they were coming. This really isn't
exactly pleasant, but she found upon
speaking of the matter to other women
that they had been forced to take the
same strenuous measures.

It does seem a good deal of a pity
that a woman who is nice enough to
be wanted at a social gathering of
this kind shouldn't be thoughtful
enough to pay her hostess the compli-
ment of a prompt answer to her in-
vitation. It is certainly as little as one
could do toward expressing some ap-
preciation of the courtesy received, to
say yes or no.

Short Cuts

The kitchen sink can be more
quickly cleaned with coal oil than
with scouring powder. Wet a cloth
with the oil, wipe out the sink, then
wipe again with a dry cloth. I save
wornout stockings and socks for sink
cloths.

In baking potatoes put a small pan
of water in the oven and you will find
they bake much quicker.

Use crepe paper napkins in the
lunch boxes to save washing. The
plain white ones may generally be pur-
chased at five cents for fifty. Have
the children bring home the soiled
ones instead of throwing them away,
as they are better than rags or news-
papers for wiping up the stove, the
bottoms of pots and skillets, etc.

Keep all the dishes for every day
use on a low shelf of the cupboard,
where a five year old daughter can
reach them. When you start a meal
put the table cloth on and let daugh-
ter set the table.

Seldom go upstairs more than once
a day. Before coming down in the
morning, throw the bed open (have
the children do the same with theirs)
and open all the windows. Then while
doing the downstairs work think of,
and collect everything that goes up-
stairs. These carry up, make the beds
and tidy up, and collect everything
that goes downstairs. It is the old
system of making the head save the
heels.

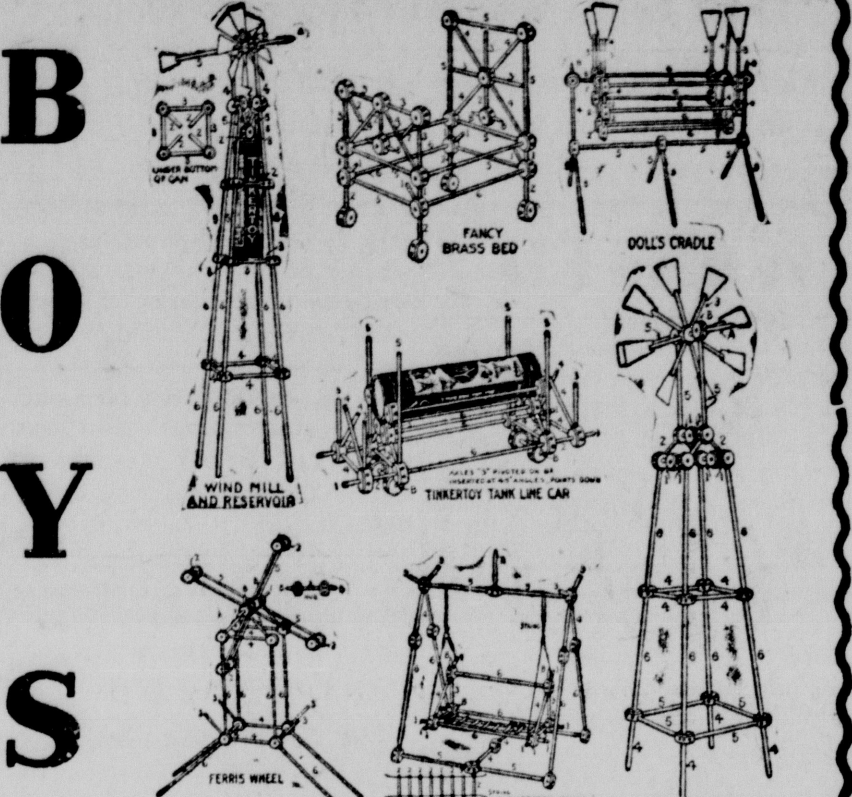

One of the greatest helps in getting
the house work done expeditiously, is
in finishing one task before beginning
another. For instance, when the bak-
ing is done, it is better to wash up the
dishes at once than to go at something
else and then come back to the dishes,
which are by that time harder to wash
and there fore more to be dreaded. On
washday to get the clothes all done
before hanging out any. When one has
been out of doors hanging the first
ones, especially be it a warm spring
day when nature calls, one dreads to
go back to the tubs, and the task
dreads.

serviceable can be turned into lovely

Parents should buy TINKER TOYS for their boys be-
cause they furnish instructive amusement. Price 50c.
